11 OF 28 SPECIES FOUND HAVE BEEN RECORDED HERE BEFORE.

A Bonanza of Boletes

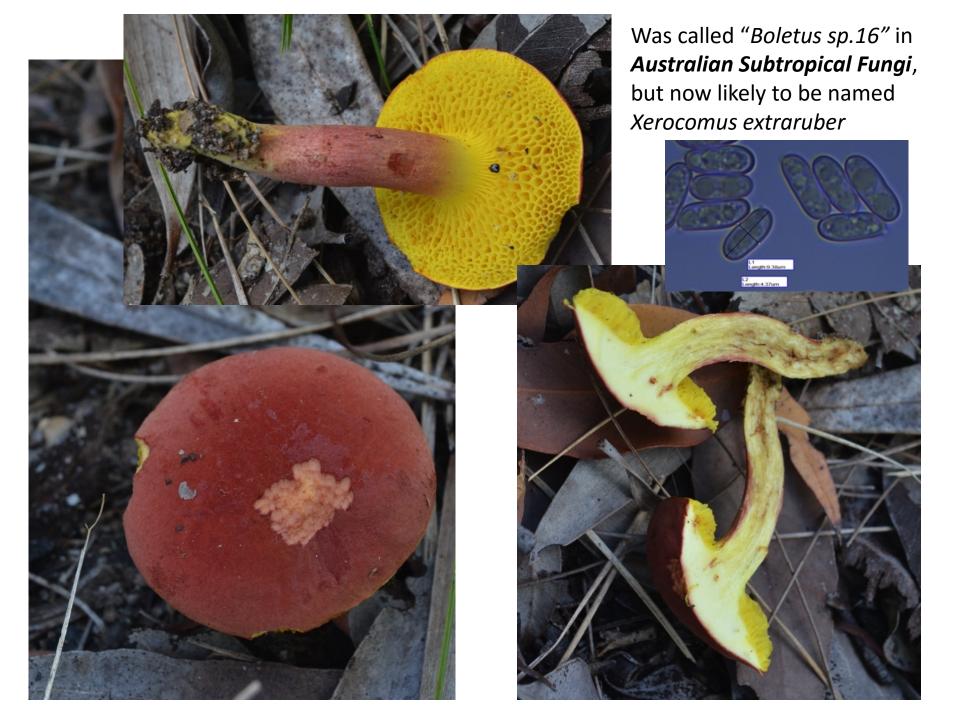

Two of the smallest boletes recorded from Cooloola

Australopilus palumanus

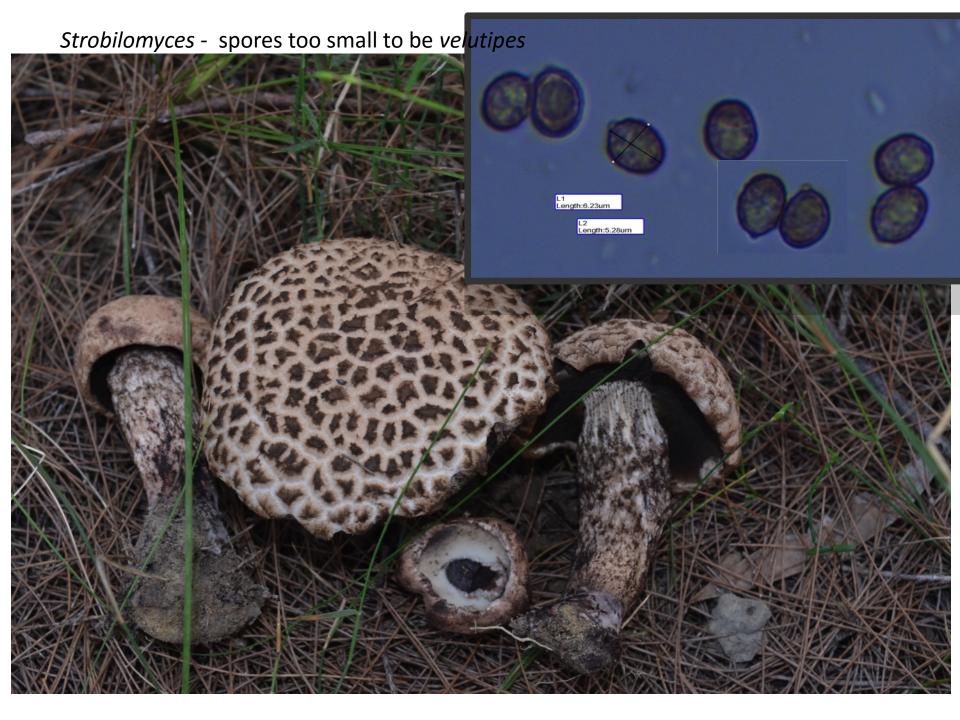

Porphyrellus brunneus

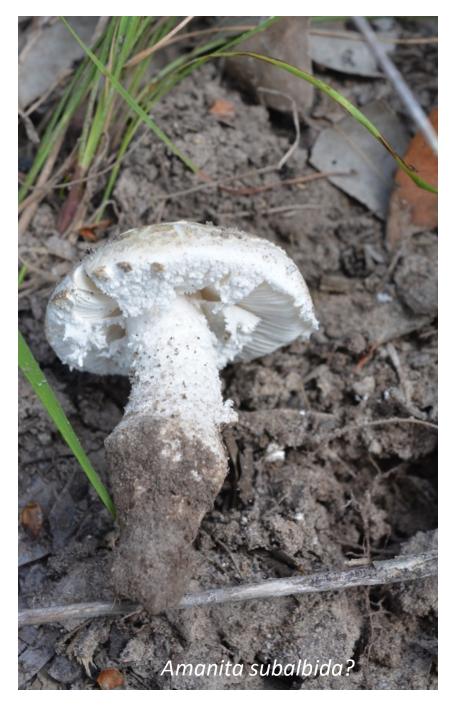

Amanita roseolamellata

Many Amanitas at this site are difficult to

This Amanita appeared for the 3rd year in a row, and in multiple places. We do need a name for it!

An interesting polypore. Is it *Coriolopsis floccosa?*

Pisolithus marmoratus

Hydnum repandum

Polyporus badius

A few of the other treasures of the day.

Lichenomphalia sp.

Russula sp.
